

 असतो मा सद्गमय	Swami Keshvanand Institute of Technology, Management & Gramothan. Ramnagar, Jagatpura, Jaipur Department of Computer Science & Engineering Project (2026-27)
---	--

Functional Requirements Finalization

Project ID: SKIT/CSE/2023-2027/ID-57 Branch: Computer Science Section: D-

Project Title: Alumni - Connect

SDG Mapping: (4) (Write SDG Title) Quality Education

Project Overview: Provide a brief description of the project (2-3 sentences)

The platform integrates real-time communication, job and internship opportunities, referral management, and event collaboration into a single ecosystem. It provides alumni engagement, improve placement support and strengthens industry-academia connections.

Objectives: Main objectives of the project

- 1) Objective 1. AI-Features + Embedding based mentor matching
- 2) Objective 2. Career Hub + Job Posting and Application
- 3) Objective 3. Community + Event Management
- 4) Objective 4. System + Role-based dashboard
- 5) Objective 5. Real-time chat

Functional Requirements:

Detail the specific functional requirements of the project.

ID	Requirement Description	Priority (High/Medium/Low)
FR-001	Users can sign up and login as a Student, Alumni, Faculty or Admin and each sees only what they're allowed to	High
FR-002	Users can create and edit their profile with skills, interest, goals & experience	High
FR-003	The app suggests good alumni mentors to a student based on their profile.	High

FR-004	The app can check an uploaded resume and give simple feedback on how to improve it.	High
FR-005	A chatbot answers student questions about careers and next step	Medium

Non- Functional Requirements:

Detail the specific functional requirements of the project.

ID	Requirement Description	Priority (High/Medium/Low)
NFR-001	Passwords and login should be kept safe and encrypted.	High
NFR-002	The app should still work well even with around <u>1,000</u> people using it at once.	Medium
NFR-003	The website should be up and running almost all the time.	High
NFR-004	The website should look and work fine on phones, tablets and computers	High
NFR-005	The code should be organised simply so it's easy to fix or add to later	Low

Assumptions and Constraints

- 1) Assumption 1. Students & alumni will have a valid email to sign up.
- 2) Assumption 2. Alumni will keep their profiles updated so suggestions stay accurate.
- 3) Constraint 1. Project has to be finished within two semesters.
- 4) Constraint 2. Free tools have usage limits that could slow things down.

Project Mentor

Name Mahendra Kumar Baniwal

Designation Associate Professor

Signature 
21/8/26

Lab Coordinator

Name Manish Shandhawaj

Designation Assistant Professor
